

IFAPA TRAINING

for foster, adoptive and kinship parents and workers

Attachment - What Does It Really Mean?

The word attachment is thrown out a lot in the foster care system; however, it is often misunderstood. We will discuss what attachment is and the different kinds of attachment, discuss Reactive Attachment Disorder (RAD), other attachment issues and finally explore the process by which attachment is created.

Approved for 3 Hours of Foster Parent Credit

About the Trainer:

Joann Seeman Smith, Ph.D., LMHC

Dr. Joann Seeman Smith is a Licensed Mental Health Counselor who specializes in diagnosis, and treatment of children and adolescents with attention-deficit disorder, learning disabilities, autism-spectrum disorders, behavior problems, depression and bipolar disorder, anxiety, and adjustment difficulties due to abuse, bereavement, or divorce. In addition to standard short-term and traditional talk therapies, Dr. Seeman Smith has expertise in using play therapy approaches with children, teens, and families, including children and families with attachment-based difficulties.
