Utilizing the NURTURED HEART APPROACH in Helping Children with Challenging Behaviors

The Nurtured Heart Approach® is a set of core methodologies originally developed for working with the most difficult child or teen. It has a proven, transformative impact on every child, including those with behavioral diagnosis such as ADHD, Autism, Asperger’s Syndrome, Oppositional Defiant Disorder, and Reactive Attachment Disorder – almost always without the need for medications or long-term treatment. Parents will discover how easy it is to not only improve their situation with a challenging or difficult child, but to transform the child through the awareness that their intensity is actually the source of their greatness.
