Sibling Groups...Conquer or be Conquered – That is the Question!!!

(3 hours credit) - Foster and adoptive parents have learned the importance of keeping siblings groups together whenever possible. "But now what?" How does a family manage the multiple issues, behavior problems, logistics of household management, special needs, and basic survival? Whether you have already fostered or adopted a sibling group or are considering this for the future, this workshop will give you the tools to better advocate for each child and your family. This will be an interactive workshop where parents can share what has worked, what has not, and you will leave with tools that you can implement in your homes.

About the Trainers: Amanda Friedl has been a foster/adoptive parent for 12 years and with her husband has adopted 18 children (a sibling group of 9 and a sibling group of 5) and has fostered many other sibling groups. Amanda is also a PS-MAPP leader in the Northern Service Area.
