From Fear to Love: Beyond Consequences II

Taken from the works of Bryan Post, Ph.D and Bruce Perry, Ph.D, this presentation speaks to parents about the challenges they face when dealing with behaviors that are often present for foster/adopted children. Kim will help parents understand the impact of early life trauma and the impact of interruptions in the attachment process. In his compassion for parents and children he offers hope and solutions for the challenges families face. Many parents of foster/adopted children express their fear not only for their child's present behaviors, but for what will become of them in the future. Kim's straightforward, clear-cut approach will help create peace and healing for families who once operated in fear and chaos.
