“Don’t Worry About It!” - Anxiety, Panic and Obsessive-Compulsive Disorder (OCD)

We all worry and at times feel anxious and at certain times worrying can turn into real symptoms of anxiety and panic. And in more extreme cases, anxiety and panic can manifest itself into obsessive thoughts and compulsive behaviors. Have you ever wondered exactly why it is that we worry and experience symptoms of anxiety and panic? The purpose of this workshop is to help participants gain greater insight and understanding behind the biology of why anxiety exists and teach the skills needed for children and adolescents, as well as adults, to be able to manage anxiety, panic, and obsessive thoughts and compulsive behaviors more effectively.

Approved for 6 Hours of Foster Parent Credit
